Ph/Fax: (02) 9683 4347 Mobile: 0419 404 788

Attention: Mr. Lindsay King

Subject: LC 4000kgs under body load binder

Dear Sir:

This letter is to confirm that the load binder manufactured and designed by your company Transking Innovations P/L has been tested to the relevant requirements of AS/NZS 4380:2001 Cargo Restraint Systems, and is covered in the test report number; TILB4T_02.

A load of 1.25 times the lashing capacity (LC) (5000kgs) was applied to the new 18 tooth binder without permanent deformation or failure. The binder continued to function as intended when the load was released.

Therefore with an LC of 4000 kgs the under body load binder meets the relevant requirements of AS/NZS 4380:2001.

If we can be of any further assistance please do not hesitate to contact us.

Yours truly,

A handwritten signature in black ink, appearing to read "Simon Finianos". The signature is fluid and cursive, written in a professional style.
